Professional Summary

Computer Science undergraduate with hands-on experience in Python-based data analysis, data preprocessing, exploratory data analysis, visualization, and machine learning. Interested in using data to identify patterns, evaluate trends, and generate actionable insights. Seeking a Data Analyst internship to apply analytical and problem-solving skills to real-world datasets.

Education

Noida Institute of Engineering and Technology — Greater Noida, India
B.Tech in Computer Science and Engineering (IoT) — 2024 – Present
CGPA: 8.4/10

BKD Aldrich Public School — Orai, Uttar Pradesh
Senior Secondary (PCM) — 2024

Technical Skills

Category	Technologies and Skills
Programming	Python, SQL, Java
Data Analysis	Pandas, NumPy, Data Cleaning, EDA, Missing Value Handling, Statistical Analysis
Visualization	Matplotlib, Seaborn, Dashboard Design
Machine Learning	Scikit-learn, Feature Engineering, Preprocessing, Model Evaluation
Databases	MySQL, MongoDB
Tools	Jupyter Notebook, Google Colab, Git, GitHub, MS Excel
Core Concepts	Data Structures, OOP, DBMS, Operating Systems, Computer Networks

Data Analytics Projects

Loan Default Risk Dashboard — GitHub
Add the actual tools used in this project

- Processed and explored loan-related data to examine borrower characteristics, loan distributions, and patterns associated with default risk.
- Developed a dashboard presenting key indicators, summary metrics, and visual comparisons to make loan risk patterns easier to interpret.
- Used data visualizations to communicate findings and support data-driven analysis of borrower profiles.

Mental Health Score Prediction — GitHub
Python, Pandas, NumPy, Scikit-learn, Matplotlib

- Cleaned and preprocessed a mental health dataset, handled missing values, and performed exploratory data analysis to understand feature distributions.
- Examined relationships between input variables and the target score to support feature selection and machine learning preparation.
- Developed a machine learning pipeline for score prediction and evaluated model performance using appropriate regression metrics.

Leadership and Achievements

- **Vice President, Machine Magnets NIET:** Supported technical club initiatives, student engagement, event coordination, and communication.
- **GirlScript Summer of Code (GSSoC) 2026:** Open-source contributor; participated in project contributions and GitHub-based collaboration.
- Participated in IDEAHACK 2.0, gaining exposure to collaborative problem-solving and hackathon workflows.

Certifications

- Linux OS Fundamentals – Infosys Springboard
- Dart Programming – Infosys Springboard
